 Gas Pipeline

 Dirty water from wash down will be collected in an underground sealed tank, which will be constructed to meet the SSAFO Regulations (Wales) 2010 standards.

 Clean water from roof and clean surfaces to open and stone filled infiltration trenches and a piped system each side of building.

The clean and foul water drainage systems will be kept separate in order to ensure no pollution incident occurs to the environment.

At the wash down stage clean water systems around the yard will be switched to underground dirty water tank.
