5th October 2022

Dear Sirs

**TO WHOM IT MAY CONCERN – PROPOSED ADDITIONAL FREE RANGE
POULTRY UNIT – UPPER BRYN, ABERMULE, MONTGOMERY, POWYS SY15
6JW**

Gamber Logistics Ltd is contracted to purchase poultry litter produced on sites operated by egg producers, breeders and broiler growers throughout Wales and the Midlands. We handle around 75,000 tonnes of litter per annum across > 75 sites and distribute it to more than 200 customers. We are willing to purchase **ALL** of the additional poultry manure produced from the proposed new development.

The litter is sold to farms as a replacement for artificial fertilisers, or as a feedstock for anaerobic digesters. The litter is sold by FACTS qualified salesmen, who are able to give advice, when required, on all compliance issues associated with organic manures, including but not limited to COGAP for Soil, Water and Air, NVZ regulations, The Water Resources (Control of Agricultural Pollution)(Wales) Regulations 2021, cross compliance, Farming Rules for Water and nutrient management planning.

Our customers are required to sign a statement acknowledging their responsibilities relating to the relevant legislation when transporting, storing and spreading litter. Duty of Care notes are produced for litter sent to AD plants.

Gamber Logistics keep electronic records of all sales, including customers names and addresses, dates of collection/delivery, and tonnages. These records are forwarded to site operators on a regular basis. We confirm that no manure will be sold to third parties within Nutrient Sensitive SAC Catchment Areas.

For further information, please see www.gamber.co.uk

Yours sincerely
